

SUM-IT PAYROLL

Your Total Wages Solution

Sum-It's Total Payroll Program is designed to cater for the wide variety of needs for wage calculation within agriculture. It handles both hourly and period paid employees and payslips.

It generates all the figures required for month and year end returns. Furthermore it also seamlessly integrates with the Total Accounting Module.

Prepare your **PAYE** in a few minutes, literally! **No more manual** records required

Will **handle any** combination of **pay periods** - weekly, fortnightly, 4-week and monthly

Caters for **all types of employees** - full time or casual

Payslips printed on plain paper - no expensive stationary needed

Month-End Reports provide the specific figures for the **Inland Revenue** return form

Comprehensive **Year-End Reports** provide all the data for **P14/P35/60's** to either print out or **submit on-line** direct to the **Inland Revenue**.

Submits **Starter/Leaver details** direct **on-line to the Inland Revenue**.
