

Setting up a Budget in TOTAL2

Stage 1 - Configuration

When first creating a budget it's important to organize your nominal codes under relevant sub-headings, rather than leave them all in one long list of unallocated expense or revenue headings.

Go into **Financial Monitor** and click on **Configuration**.

You can then set up sub-headings for different enterprises and overheads, and once done, you can drag the nominal codes up and into which ever sub-heading they belong.

Stage 2 - Planner

The Planner is where you either create a new budget or amend an existing one.

On coming into this page, either click on the + icon to add a new budget or select a previously entered one and then click on the / (pen) icon to amend it.

When clicking on the + icon, a window is presented:

Plan details

Plan Name Description

Copy Existing Plan ☐

Plan Type Start Date

Plan by Nominal ☒

Start Plan With

Management Acc

Pay Account Opening Balance

Net/Gross

Fill in the Plan name and description.

You can base the plan on an existing one.

Select whether you wish to plan on an Invoice basis (months the invoices were raised) or a Cash basis (months the invoices were actually paid or monies received) then specify when you wish the plan to start from.

Plan by Nominal – select this to enter amounts for each individual nominal code or leave it unticked to just plan by summary heading.

Start Plan With – you can opt to base your initial plan on a range of options:

Just Zeroes (ie. Blank)

Last 12 months live data

2 Previous Years Average Values

5 Previous Years Average Values

Management Acc – You can just make a plan for a single enterprise and monitor it through the year.

Pay Acc – If you are making a Cash Planner wish to limit the plan to only one Bank Account then select it

Opening Balance – Enter here the relevant opening bank balance

Net/Gross – choose whether you prefer to see the figures including VAT Gross or excluding VAT (Net)

Finally, click on the **Commit** button to generate the plan.
