*Offer ends 30th April 2024.

Watch TOTAL2 In Action

Check out our short video below giving you a snapshot of what TOTAL2 Farm Accounts offers.

If you're still not sure, you can always [book yourself in for a free no-obligation demo](#) today and see for yourself how you may benefit from our feature-packed, hassle-free, spanking new Accounts package.

Speaking to many of you over the last 6 months since our TOTAL2 Accounts program launched, there was a general consensus that the easiest time for you to switch your Accounts over to TOTAL2 was at your **Year End**.

Why might TOTAL2 Accounts be helpful for you?

#1 Be in Control

- Complete with farm activity calendar, action list and contact database you have everything you need to stay in complete control.
- The eye-catching new dashboard is easier to navigate than ever. You will gain total flexibility over the set-up of your Accounts, seeing exactly what you need, where you need it!
- Control the size of the screen to see full report detail all on one screen or zoomed in so there's no more squinting at the minute detail.

#2 Grow Profits

- Be more informed when making business decisions with more details held against invoice description lines.
- Grow your business with farm and diversification-focused reports for each enterprise, piece of machinery and property.

#3 Save Time

- Look what we can do now... Auto-bank reconciliation to bank statements now also pays off Debtors/Creditors and adds new invoice entries at the same time!
- Invoice defaults (nominal codes, due dates etc.) are set for individual Customers/Suppliers so no more repeating the same blurb every time.
- Also, work from anywhere with optional Cloud access, you'll never spend wasted hours on admin again! :)

#4 TOTAL Peace of Mind

- Always be fully compliant with HMRC and Making Tax Digital.
- Our new Carbon Audit Report pulls together all relevant physical quantities, helping you nail any inspections!
- Rest assured you'll never miss a payment (or go over on your repayments!) with our alerts & reminders
- Our expert Support team is on hand 6 days a week if any queries arise.

Ready to get started?

Complete our simple order form to register your interest in upgrading and secure our special upgrade price (ending 30th April).

Your Questions Answered

I'm ready to upgrade, what do I need to do?

[Click here to fill in the order form](#), no invoice will be raised at this time, rest assured that this just locks in your order at the special discounted rate. We will call you to finalise all details and to book you in for your upgrade.

What does the change over involve?

From your end... not much! We will book you in for a suitable 48 hour period where you can have two days of downtime from your Accounts system. We call you before this to get your set(s) of Accounts from you and we do the rest. Once the conversion has taken place we send you an email with the software and thorough, step-by-step instructions as to how to install it on your machine.

What information will you convert over/do I have to start again?

As standard, we will take over two full years of Accounts. This means that we will trim off any customers or suppliers, outstanding debtors/creditors and any bank rec items outside of this time period.

Alternatively, YOU can choose to start afresh for your new financial year to get rid of any nasties that may have accumulated in your data and to start on a proper clean slate.

Where will the rest of my Accounts information go?

EVERYTHING you have ever entered on your old system will remain untouched as an archive of your Accounts data for you to look back on whenever you need to.

Do I have to go over to the Cloud?

Too many of our users do not have stable broadband connection! This means that YOU will have the choice of Cloud operation where you can enjoy the convenience of multiple operators working on the system in real time with auto-back-up.

When does this special offer end?

We are giving all current SUM-IT users access to this offer until 30th April 2024, after which the upgrade price will be £525 + VAT.

I'm tempted but not sold, how do I know the system will work for me?

That's fair! It's a big decision to make but we're confident that you will recognise the intuitive processes that are a hallmark of SUM-IT systems. Plus, you'll always be backed up by our friendly Support Team and you will receive free access to our TOTAL2 Support Video Hub. If you're still unsure, reply to this email with any questions you have, [book a free demo](#) or call 01844 213003.

What are the next steps?

Use the button below to fill in the order form (to the best of your knowledge :) this will not automatically raise an invoice or put your order through so please don't sweat the small stuff). If you do have any additional questions, please just reply to this email or call us on 01844 213 003.
